Building and Inspections

inspection@cityoflacrosse.org 608-789-7530

RESIDENTIAL - *Additions or Alterations*

When do I obtain a building permit?

You need a building permit for *any structural alteration or addition* including, but not limited to, changing window size, re-rocking a wall, changing a window to a door, putting up or tearing down any wall, building or demolishing a detached garage or shed, building or tearing down an above ground swimming pool

Data Requirements:

- Completed and signed Application for Building Permit
- Two (2) complete sets of plans to scale. A set electronic and paper or both sets electronic. A set includes all floor plan, elevations, cross-sections and details. Also include structural calculations for trusses and unusually large beam/headers for large spans.
- Two (2) copies of a survey or accurate land drawing showing your existing home and location of proposed changes. Be sure to indicate distance from lot lines to the wall of existing and/or proposed structures.

If you would like to submit the permit application electronically, please upload the forms and email them to inspection@cityoflacrosse.org

How long does it take to get my permit?

Permits are reviewed on a first come, first serve basis. Inspectors are allowed 10 business days to complete. They may take longer depending on circumstances. For an additional cost you can EXPEDITE your application, moving it to the forefront.

How much does a permit cost?

Building Permit Fees can be found on the City website at this link: [Appendix C - FEE SCHEDULE](#) | [Code of Ordinances](#) | [La Crosse, WI](#) | [Municode Library](#)

How close to the lot-line can I build the addition?

In most areas, you must stay 20% of the lot depth or a minimum of 15' (maximum of 30') from the rear lot line and 6' from the side lot lines and 25' from the front lot lines. CALL US TO MAKE SURE if your project is close to these parameters. SOME AREAS DO HAVE DIFFERENT SETBACK RULES. You may want to bring in your survey before you begin designing your home.

Can I do my own electrical wiring?

No. Local law requires a licensed contractor to perform electrical wiring. An electrical permit is required.

Can I do my own plumbing work?

No. Local law requires a licensed contractor to perform plumbing work. A plumbing permit is required.

Can I do my own HVAC work?

Local law requires a licensed contractor to perform any gas work and a permit will be required. Some other HVAC work will require a permit; please inquire with Community Risk Management regarding permitting.

What do I do with the card I received with the building permit?

The yellow permit card should go in a window or where it can be seen from the street

When must I call for building inspections?

Inspections are required:

- After excavation, before placing concrete
- After foundation is formed, before placing concrete
- After foundation is built but before backfilling
- When rough carpentry is erected. You must first have plumbing rough in inspected and electrical rough in inspected and approved. THEN CALL FOR FRAMING INSPECTION. The Building Inspector cannot approve framing prior to electrical and plumbing rough inspection/approvals.
- When insulation is completely installed before dry-walling begins.
- Final inspection of plumbing, electrical, HVAC and building before occupancy.

CAUTIONARY STATEMENT TO OWNERS OBTAINING BUILDING PERMITS

101.65(lr) of the Wisconsin Statutes requires municipalities that enforce the Uniform Dwelling Code to provide an owner who applies for a building permit with a statement advising the owner that:

If the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under s. 101.654 (2) (a), the following consequences might occur:

(a) The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

(b) The owner may not be able to collect from the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one- and two- family dwelling code or an ordinance enacted under sub. (1) (a), because of any bodily injury to or death of others or damage to the property of others that arises out of the work performed under the building permit or because of any bodily injury to or death of others or damage to the property of others that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

CAUTIONARY STATEMENT TO CONTRACTORS FOR PROJECTS INVOLVING BUILDING BUILT BEFORE 1978

If this project is in a dwelling or child-occupied facility, built before 1978, and disturbs 6 sq. ft. or more of paint per room, 20 sq. ft. or more of exterior paint, or involves windows, then the requirements of ch. DHS 163 requiring Lead-Safe Renovation Training and Certification apply. Call (608)261-6876 or go to the Wisconsin Department of Health Services' lead homepage for details of how to be in compliance.

WETLANDS NOTICE TO PERMIT APPLICANTS

You are responsible for complying with state and federal laws concerning the construction near or on wetlands, lakes, and streams. Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the Department of Natural Resources wetlands identification web page or contact a Department of Natural Resources service center.

ADDITIONAL RESPONSIBILITIES FOR OWNERS OF PROJECTS DISTURBING ONE OR MORE ACRE OF SOIL

I understand that this project is subject to ch. NR 151 regarding additional erosion control and stormwater management standards, and will comply with those standards.

RESIDENTIAL ADDITION SECTION PLAN

NOTE: With proper detailing of building dimensions, material types, spans, sizes, spacing, Fb, properties, etc., and strikeouts of non-applicable details, this cross section would provide an acceptable plan drawing. With the local inspection authority's permission, this drawing may be detailed and submitted as part of a plan package for plan review. (Fb - Fiber bending stress of selected lumber. Alternatively, grade and species information may be noted.)

EXAMPLE PLOT PLAN
COMMUNITY RISK MANAGEMENT
CITY OF LA CROSSE
www.cityoflacrosse.org

This sample plot plan has been designed to assist you in preparing a similar plot plan of your own premises, when necessary to obtain a building permit, or when required by the Board of Zoning and Appeals, Board of Housing Appeals, or Board of Building Appeals. Plot plans for larger buildings shall go into more detail.

NOTE: DRAWING IS NOT TO SCALE
